Thanks, Karen! And no, I haven't heard anything. Copying Leslie, as I know she's been trying to find out more.

Jennifer,

Thanks for the opportunity to comment. I focused on the slides on EISA and EU Directive -- both look good/straight forward. I have place a few comments/clarifying notes for you below the EISA slide, given likely questions coming from an international audience.

Any news regarding interactions on the soy/corn issues in the EU directive?

Best,
Karen

Hi Karen and Ben - a colleague asked me to make a presentation to brief her APEC subcommittee on standards and conformance, the trade facilitation task force, on biofuels sustainability-related activities. I put together the attached, and I'd welcome your comments. You'll probably get it through EPA/State channels too. The meetings are next

week in Singapore. Thanks, Jennifer
